1. This agreement is to serve to implement the policy on reproduction of intelligence adopted by the IAC on 8 October (IAC - M - 310, item 4; IAC - D - 95/6).
2. Document copy services in the IAC community under the 8 October authorization shall be performed in a manner consistent with the following general objectives and practices:

a. Reproduction by One Agency for Its Own Use

Document reproduction shall promote the service capabilities of the central libraries of the IAC. Indiscriminate copying of documents by individual analysts or operating officials of IAC agencies is not intended or authorized.

b. Reproduction of One Agency for Use of Another

- (1) Document copy service is desirable and is to be promoted when an agency, on behalf of any properly accredited representative of another IAC agency, conducts a literature search and produces a bibliography of its document holdings in any subject field in which it has special competence. Having identified pertinent references, it may reproduce them to make them promptly available. The requestor shall not be required to levy separate requests on source agencies for documents originally produced by them.
